Work Experience

Bacancy Services Pvt. Ltd.

Full Stack Developer Trainee

Ahmedabad

Jan 2026 – Apr 2026

- Completed intensive, structured training in full-stack development, HTML, CSS, JavaScript, TypeScript, React.js, Node.js, Express.js, Next.js, and Prisma ORM.
- **Health Queue** a real-time appointment booking system with dynamic time slot availability, status management (pending/confirmed/rejected), and full booking history for patients.
- Integrated Razorpay payment gateway supporting online and cash modes, with order creation, payment verification and webhook handling
- **Stack** *Next.js, TypeScript, Supabase, React, Prisma ORM.*

Projects

Bughive — Open Source Contribution Portfolio

- Built a contribution claim system where developers submit PR-linked contributions with proof uploads, subjected to peer review via structured impact scoring for credibility.
- Implemented GitHub integration via Octokit API to fetch and store PR metadata (additions, deletions, file changes), enabling data-driven evaluation of contributor portfolios.
- Designed a three-role ecosystem (Contributors, Verifiers, Maintainers/Hiring Managers) with role-based onboarding, GitHub OAuth, and a 4-step onboarding flow.
- **Stack:** *Next.js, React, TypeScript, Supabase, GitHub API*

Urban Rozgar — Service Booking Platform

- Implemented a multi-role system (Consumer, Provider, Sub-admin, Admin) with role-based access control.
- Built a commission-based revenue model with Bronze-to-Diamond provider tier progression, a loyalty rewards system with points earning/redemption, and Razorpay integration with loyalty discount support.
- Developed an admin dashboard with analytics, dispute resolution, real-time notifications, and provider withdrawal handling.
- **Stack:** *React, Express, Typescript, Supabase, Prisma ORM.*

Technical Skills

Languages: Java, C++

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend & DB: Node.js, Express.js, PostgreSQL, MongoDB, Supabase, Prisma ORM, Sequelize, Redis

Tools: GitHub (Octokit), Razorpay, OAuth
